moving-project.eu

Funded by the European Union's Horizon 2020 research and innovation programme under grant agreement No. 693092

The MOVING platform helps its users (such as students, scientists, professionals, public administrators) to improve their information literacy.

Perform **scalable real-time search** and retrieve various kinds of documents (including web pages, scientific publications, videos).

Filter and explore search results through **network visualisations driven by the user interest**, to highlight relations among the documents and entities (authors, organisations etc.).

Become search experts using an **Adaptive Training Support** widget.

Separate different authors with the same name or **connect different versions** of the same document.

Perform **analytics** on search results, such as **time evolution of laws**, for use in professional services.

Browse files stored locally, to connect them to platform data.

You can access the MOVING platform for free at platform.moving-project.eu

Main search page of the MOVING platform, with the faceted search functionalities visible on the left and the Adaptive Training Support (ATS) widget on the right

Position	Shift	Document titles	Work	Literacy	Child
1	+2	Previous ed. published as: What works for children with learning disabilities?	Red bar	Blue bar	Green bar
2	-1	Learning through work. Audit of learning: literacy, language, numeracy...	Red bar	Blue bar	Green bar
