Keywords	<i>Intellectual Property Plan, Intellectual Property Rights Plan</i>

Executive Summary

This deliverable presents the revision of the first version of the Intellectual Property Rights (IPR) plan of the MOVING project presented in month 18 of the project as deliverable D6.3. Specifically, Section 1 presents the history and the purpose of the deliverable. Section 2 briefly reports the IPR concepts and definitions: i) the definition of Intellectual Property (IP) and what forms it can take, ii) the possible methods for protecting an IP asset, and iii) the relation between IP protection methods and exploitation. Section 3 presents in detail all the IP assets of the consortium partners (organised by WP) that they generated within MOVING. Section 4 presents an analysis of the IP asset types and the IP protection methods that come out of the previous sub-sections of Section 3, analyses possible MOVING dependencies with external IP, and describes: i) the internal consortium procedures for protecting the project's IP assets, ii) the MOVING internal procedures for use or sharing of IPR between partners in MOVING, iii) the procedures for handling joint IPR ownership in the project, and iv) the procedure for protection IPs by patenting. Section 5 finally gives some brief concluding remarks.
